

# Refibra™

REBORN TENCEL™ FIBER

The pioneering REFIBRA™ technology involves upcycling cotton scraps from garment production. These cotton scraps are transformed into cotton pulp. A substantial proportion - up to one-third - is added to wood pulp. The fibers produced with this combined raw material are 100% bio-based.

## PRODUCT LIST

Group	Blend	Ne	Colour
100% REFIBRA™	100	8/1-50/1	ECRU
